

Accessibility of this website

This website is using an accessible theme; however, there could be areas of the website that are not fully compliant.

Some areas of inaccessibility include:

- Some images do not have sufficient alternative text or are missing alternative text
- Same link text is used to go to multiple destinations
- Colour contrast might not be sufficient in certain situations
- PDFs may not meet accessibility standards
- Some input fields may be missing a description or have missing labels
- Some headings may have empty tags
- Some links are only identifiable by colour
- ID elements may not be unique
- HTML has been used for structural purposes within the site

Compliance status

This website is partially compliant with the Web Content Accessibility Guidelines (WCAG) version 2.1 AA standard due to the non-compliances and exemptions listed above.
